

PRODUCT DATA SHEET

EXP-ILS50K

Small Room Induction Loop System

The **EXP-ILS50K** is ideal for meeting rooms, lecture theatres, churches, schools, TV lounges, shops and other small to medium sized applications.

The system will cover a square room of up to 50m² (11m x 11m) or a rectangular room of up to 100m² (10m x 25m).

The EXP-ILS50K is a compact unit with all controls on tamperproof fittings, ensuring that once the system is setup no unauthorized adjustments can be made.

The amplifier's state-of-the-art current drive audio processing circuitry includes an automatic compressor/limiter which maintains the loop signal within a small dynamic range to improve intelligibility. Manual adjustments can also be made using the amplifier's internal tamper-resistant drive, level and tone controls, allowing the system to be tailored to suit the exact requirements of any room.

Key Features

- *3 inputs are available:
SCART input from TV / Video + 2 x microphone inputs (1 microphone supplied)*
- *Compact unit for discrete installation*
- *Fully automatic compressor-limiter*
- *Tamper-resistant drive, level and tone controls*
- *All cables included (33 Metres)*

Typical Application
